XChange 2
Your Detecting Connection

Easily manage your detecting and location data. XChange 2 is supplied on the CTX 3030 CD, or is available as a FREE download from: www.minelab.com/apps

Identify... Detect... Map... Store...

Discover more historical treasures with the most accurate target identification available. With Minelab's exclusive integrated GPS, you can navigate to your favourite locations and record your finds. With a range of identify... Detect... Map... Store... functions, the CTX 3030 does it all.

Detect Screen

Identify
Adjusts the detector to accept good targets and reject trash.

Detect
Displays the Detect Screen, showing target data, and selects from two discrimination patterns.

Map Screen

Map
Displays the Map Screen, showing GPS data, and selects from three zoom levels.

Store
Records GPS data for WayPoints, FindPoints, and GeoHunts.

10FT / 3M

Waterproof
Go detecting anywhere, on land or underwater to 10 ft (3 m).*

PC Mapping (Google Maps)
Manage detector settings and treasure locations via XChange 2.

"With the CTX3030's ability to identify and display multiple targets under the coil simultaneously, I've been isolating and recovering coins from trashy areas like never before."

Field Tester - USA

"Now we're talking... that's impressive!!! With Target Trace you seem to have achieved the impossible! I located a coin under a nail with twice its mass, two targets... unbelievable!"

Field Tester – UK
